

MPPC15 Celeron Maritime Panel PC configurable

The Maritime Panel PC 15" Celeron provides cost efficient performance for demands of latest software generation for vessels and other maritime applications. As you would expect, it is tested according to IACS E10 as well as EN 60945 for bridge use, approved by GL and DNV. The MPPC15 Celeron is available with antireflex glass or with resistive touch screen, suitable for marine applications, with a choice of the latest Operating Systems and with DC or (and) AC power supply. Standard options like flash memory, speakers, alarm buzzer, I/O Interfaces and others can be easily configured for most applications. Individual options and customer specific features ensure that most requirements can be fulfilled.

Sonove Services

- ✓ Customer-specific Front Design
- ✓ Different OS
(e.g. Windows, Linux, etc.)
- ✓ Customer-specific Images
- ✓ Individual Software Development
(Embedded, HMI/SCADA, protocols, etc.)
- ✓ Customized Systems (HW / SW)
incl. GL/DNV certification (including one off designs)
- ✓ Individual Turn Key Solutions
(HMI/SCADA, Control, IEC61131, etc.)

Technical Data MPPC15 Celeron

15" TFT Display widescreen 4:3,
resolution 1024 x 768,
brightness: 350 cd, LED Backlight
contrast 1000:1
antireflex glass / resistive touch
IP67 front, IP40 back

CPU: Intel® Celeron®, 2 x 2.2 GHz
RAM 2/4/8/16 GB
SSD 64/128/256 GB

2 Ethernet 1 Gbit/s
4 USB, 2 available at the front
4 RS232 / 485 galv. Isolated

Options:

- Alarm Buzzer, 2 x speaker 2W
- Ext. Slots: CAN, Mini PCIe, PC104+

Power supply:
18-32 VDC / 88-264 VAC / redundancy

Temp. -15 to +55°C

Type Approvals:
GL, DNV
EN 60945
